

Bioenergy in Louisiana

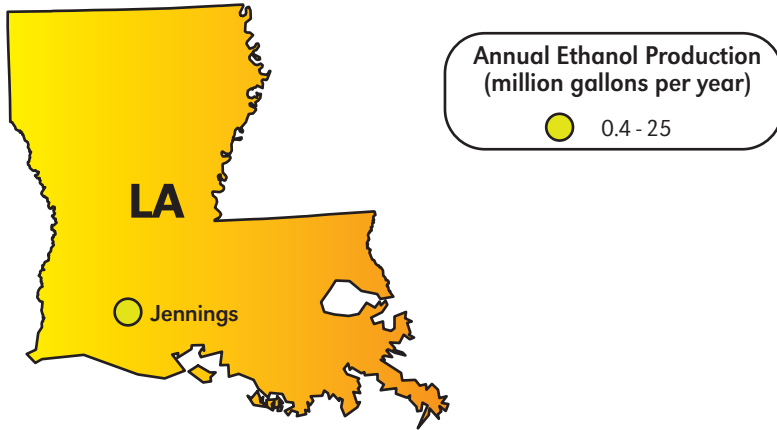

from the Southern Bioenergy Roadmap

The Southern Bioenergy Roadmap established that the South is in a unique position to create thousands of jobs through applying abundant natural resources and intellectual capital to the production of electricity and automotive fuel from plants, trees and waste – also known as biomass. Download the report at <http://www.saferalliance.net/projects/roadmap.html>.

Bioenergy Research Assets

- ◆ Audubon Sugar Institute
- ◆ Hill Farm Research Station
- ◆ Iberia Research Station
- ◆ Louisiana Agricultural Experiment Station
- ◆ Louisiana State University Agcenter
- ◆ Northeast Research Station
- ◆ Rice Research Station
- ◆ USDA Agriculture Research Station
- ◆ W.A. Callegari Environmental Center

Direct and indirect economic contributions of biopower generation by heat and electric plants in Louisiana, 2007*

Revenues (Million \$)	Personal & Business Income (Million \$)	Employment (Jobs)
904	536	13,148

*Additional research needs to be done to assess current and potential economic impacts of biofuel plants.
