

Bioenergy in Oklahoma

from the Southern Bioenergy Roadmap

The Southern Bioenergy Roadmap established that the South is in a unique position to create thousands of jobs through applying abundant natural resources and intellectual capital to the production of electricity and automotive fuel from plants, trees and waste – also known as biomass. Download the report at <http://www.saferalliance.net/projects/roadmap.html>.

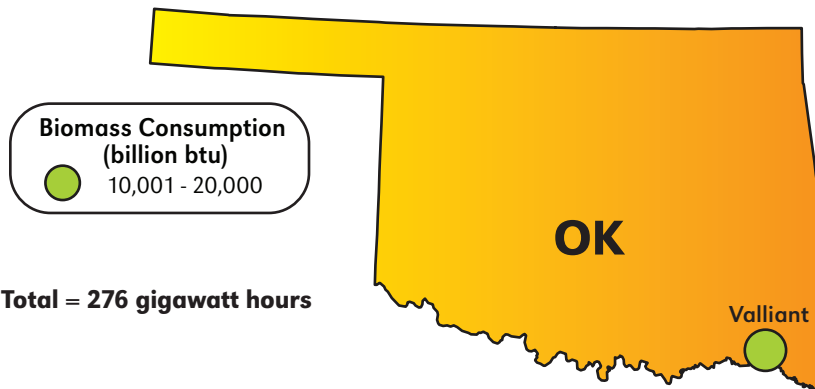

Locations and capacities of current biodiesel plants

There are no ethanol plants in Oklahoma.
